## Who am I? (Answers)

Find the names of the three types of bees in a colony.

### The queen

I am the mother of the colony.  
My abdomen is very long.  
I lay more than 1,200 eggs everyday.

### The worker

I do all the work in the hive.  
I clean, feed, build, fan, guard,  
and forage.

### The drone

I have extra large eyes and a stout abdomen. I do not have a stinger or pollen baskets and I cannot gather flower nectar using my tongue. I am a male bee.
