

Special event add-on options

Discover a range of engaging activities at the Digital Innovation Lab, from hands-on team-building exercises to interactive mini-workshops. Each experience is designed to spark creativity and collaboration, with flexible options to fit your schedule and group size. Looking for something specific? Some activities can be tailored to meet your unique needs!

Guided tour of the Ingenium Centre

Step behind the scenes and uncover the fascinating journey of an artifact at our state-of-the-art Ingenium Centre! Home to over 150,000 unique objects—including massive railway locomotives, historic farming equipment, and beautifully preserved vintage cars—this exclusive tour offers a rare glimpse into Canada's rich innovation story. Curated tours for a more tailored experience are available at an additional cost.

Price: Starting at \$400 for 18 people

Duration: 60-90 minutes

3D scanning demonstration

The future of museum conservation is here with a live 3D scanning demonstration! Learn how the Ingenium Digital Innovation Lab transforms artifacts—from tiny vials to full-scale aircraft—into stunning digital models. Explore how this cutting-edge technology supports conservation efforts, accessibility, and enhances visitor experiences onsite and online.

Price: Starting at \$250 for 30 people

Duration: 45 minutes

Hands-on zoetrope animation

Go back in time and discover the magic of early animation! Explore the fascinating science behind the zoetrope, one of the first moving picture devices, and an artifact from Ingenium's collection. Then, unleash your creativity by designing your own animation and bring it to life using our 3D printed replica.

Price: Starting at \$250 for 30 people

Duration: 60 minutes

Send a secret message: Telegraph key experience

Explore the past and discover all about the telegraph, a revolutionary early communication device. Learn about the science of the electric circuit then put your new skills to the test by sending a secret message using a 3D printed replica from the Ingenium Collection.

Price: Starting at \$250 for 30 people

Duration: 45 minutes

Activity: User experience (UX)

Think like a designer and put yourself in your users' shoes! In this interactive UX activity, you'll learn how to reframe challenges and create better, more user-friendly products using real industry techniques.

Price: Starting at \$250 for 30 people

Duration: 60 minutes

Activity: Making images accessible

With over 8 million Canadians living with a disability, designing with accessibility in mind is essential. In this hands-on session, discover how to make online images more inclusive and participate in a fun, team-building activity that highlights the power of accessible design.

Price: Starting at \$250 for 30 people

Duration: 45 minutes

Activity: Testing your products

Great design starts with great feedback! Learn the fundamentals of user testing and experience firsthand how early testing helps shape better, more user-friendly products.

Price: Starting at \$250 for 30 people

Duration: 60 minutes
